Saswati Panda

| Web Development Intern at CodSoft | Cloud Computing Enthusiast

|

Thane, Maharashtra, India

Summary

Enthusiastic about the dynamic nexus of web development, UI/UX design, and cloud computing. I am on a quest to combine the art of design with the science of technology because I have a strong interest in creating user-centric digital experiences. In addition to academics, I enjoy history podcasts and reading a lot, constantly broadening my horizons in knowledge. I'm eager to advance my knowledge, create new ideas, and work with others in these fields. Let's communicate and investigate the options together!
